Hello,

The US EPA has prepared the following information resource:

Thank you for contacting the Region 8 Environmental Information Service Center. Local and national media inquiries about the Gold King Mine release can now be sent to press@epa.gov. We have copied press@epa.gov on this response to you so they are aware of your request. We also have a phone line in our Joint Information Center staffed by press officers. The phone number is 970-812-3351.

Subject: Call for full investigation from EPA into Colorado mine water release

To Environmental Protection Agency;

I write to the Environmental Protection Agency (EPA) as the Editor-in-Chief of a small publishing organization, Freedom Publishers Union. We have a global publishing reach, without borders and have our Headquarters in Toronto, Canada.

We commend the efforts and reasonably efficient response to the recent accidental release of contaminated water from a mine in Colorado, by EPA staff.

Freedom Publishers Union calls for the EPA to launch a full investigation into the situation, its cause and how it can be and should be prevented in the future. Following this, we should expect a full report of the matter to be released and published from the EPA.

Our Organization would appreciate a response from the EPA in relation to our call for a investigation and eventual release of a report on the situation.

Feel free to contact me personally, editor@freedompublishersunion.com

Regards,

Chris Jones
